

The prices of surface treatment services are determined by agreement. Agreed prices for specific services and specific surface finish of the delivered semi-finished product are always specified in the work contract. The supplier reserves the right to make changes in the prices if:

- the CZK exchange rate against the EUR falls by more than 10% compared to the period in which the price was set
- the inflation in services reported by the Czech Statistical Office will exceed 10%
- the price of used chemicals increase of 5 %

The customer will be informed in writing about any price change one month in advance. In case, the customer requires non-standard technical-delivery conditions or the general technical-delivery conditions are not observed, the following surcharges or compensations may be added to the valid prices:

surcharge for excessively soiled parts	+ 30 %
surcharge for soiled packaging units	+ 10 %
surcharge for untreated parts after hardening (heat treatment)	+ 30 %
surcharge for repeated galvanizing	+ 30 %
surcharge for hydrogen removal (2 hours)	+ 30 %
surcharge for priority order processing within 24 hours	+ 50 %
surcharge for priority order processing - on hold	+ 100 %
surcharge for requested work on Sat, Sun, public holiday	+ 50 %
