

The prices of surface treatment services are determined by agreement. Agreed prices for specific services and specific surface finish of the delivered semi-finished product are always specified in the work contract. The supplier reserves the right to make changes in the prices if:

- the CZK exchange rate against the EUR falls by more than 10% compared to the period in which the price was set
- the inflation in services reported by the Czech Statistical Office will exceed 10%
- the price of used chemicals increase of 5 %
- the price of energy – electricity and gas – change by more than 15%
